

FIELD FISH LESION WORKSHEET

Date: _____ Collection Time (begin): _____ (end): _____

Collection Location: _____

Collection Gear: _____ Biologist: _____

LESION TYPE: Loss Of Scales (LOS); **Reddening**=area of reddening; **Ulcer**=penetrating the skin; **Other** (describe).

LESION LOCATION: Head; Fin (one or more fins); **Vent**; **Body** (other than head or fins); **Other** (describe).

LESION PRESENTATION: **Focal** (affected area with defined edges); **multifocal** (more than one focal lesion on the body); **diffuse** (edges of affected area not clearly defined, or affected areas are adjoining/coalesced).

SEVERITY CODES: **0** =normal; **1**=mild; **2**=moderate; and **3**=severe.

T=mark if lesion(s) is due to obvious capture/net trauma.

✓=check if sample(s) taken for supporting studies (or mark for histopathology, bacteriology, virology, etc.)
